Multi-Game Table (1-1-1) Standard

Product code: PS.ST.GT.111

What do the numbers 1-1-1 mean in this picnic set? We produce several variants of the multi-game tables. Because of this, we have numbered the games. 1 symbolises chess in the HeBlad tables. This multi-game table 1-1-1 is thus equipped with three chess boards. How are the game boards attached? The game boards are integrated into the concrete table top of the picnic set. They are impossible to pry loose without the right equipment. We've designed the table so that there is no annoying edge or ridge around the game boards; they are perfectly level with the rest of the table. This multi-gaming table is perfect for playing chess, impervious to vandalism and very easy to keep clean.

Multifunctional multi-games table
Because the game boards integrate so neatly into the table top, the set can also be used when not being played. With the ideal seat and table top height, this multi-games table is a perfect picnic set. The multi-game table 1-1-1 comes with three sets of chess pieces for free. But when chess is not being played, you have an extremely solid picnic set on your property.

Where are the multi-game tables?
You will encounter HeBlad products throughout Europe and even beyond. The multi-game tables are often placed at campsites, in parks and on schoolyards. But also on industrial estates and at private homes. If your location is difficult to reach or you are unsure about the space you have to place the set, please contact us first or read the delivery conditions carefully. Our products are large and heavy and cannot be placed just anywhere. But of course we will think along with you and look for what is possible.
