Ping-pong table Anthracite-Concrete

Product code: PP.AB

At HeBlad we want to meet the wishes of as many people as possible. Would you like a ping pong table, but not as striking as blue or green? Then this table in anthracite concrete might be something for you. Just like our other table tennis tables, this table is made entirely of concrete and consists of one piece. Guaranteed fun!

Sustainable table tennis table

What makes HeBlad products so sustainable? HeBlad table tennis tables are super strong and resistant to various weather conditions. The robust tables weighing 1360 kg cannot be easily moved and can certainly withstand a blow. A HeBlad table is purchased once and can then be used countless times. A truly sustainable choice. Together we go for sustainability!

Combine table tennis table

Can the table tennis table be combined? This rectangular table tennis table is usually used by 2 to 4 people. Do you like to play with several people? Then a number of people will have to wait. Provide a comfortable waiting space by placing two benches on the long side of the table. Waiting players can take a seat here and still experience the fun of the game. Would you rather play table tennis with more people at the same time and play a game 'around the table'? Then choose the round table tennis table or the table tennis table with rounded corners.

Calmer appearance

The colour of the table tennis table gives the table a calmer and more natural appearance, which makes it look great in a wooded area, or on the square at business premises. Employees can go outside during their lunch break and play a game together. The natural colour ensures that the table can easily be combined with its environment. This table is also available in natural concrete, amongst other colours. Which colour ping pong table is the best choice? This completely depends on your taste and the environment in which the table will be placed.

Ping pong table supplied free of charge

HeBlad produces these tables in our own factory. This is the reason why they can often be delivered from stock, usually to be delivered within 4 weeks. As a service, we provide the delivery completely free of charge and we make sure to secure the right placement for your table. You will find more information and videos about our delivery process on our website. It is important for delivery that the location is easily accessible. You can read more about this in our terms and conditions.

Why HeBlad concrete tables:
• Easy to maintain
• Sustainable choice
• Vandalism-proof
• Encourages outdoor play
• Provides fun and teamwork
• You order directly from the supplier here!

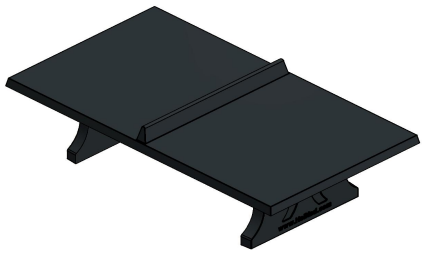

Wheelchair users enthusiastic about concrete table tennis tables

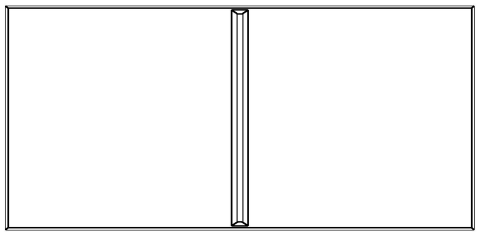

Our concrete table tennis tables are a staple in parks, schools, and recreational areas. They are known for their strength and durability, but also for their surprising accessibility. Wheelchair players can easily join in thanks to the wide passage and the comfortable height of the table top. This allows everyone, regardless of mobility, to fully enjoy the game. Choose from various colours: Green, Blue, Anthracite, Natural Concrete, and Anthracite Concrete.

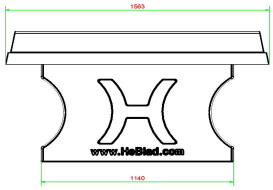

Would you like more information about this table tennis table or do you have questions about the delivery of this product? Please feel free to contact us and we will discuss the possibilities.

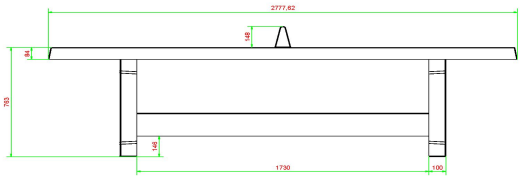

** When purchasing a HeBlad ping pong table, a set of bats (4 bats and 2 balls) is included for free.
