Concrete base plate for tennis table Anthracite-Concrete

Product code: OP.PP.AB

HeBlad's ping pong tables are legendary, you can find them all over the world. From campsites in France and parks in Belgium to sports fields in the Netherlands, everyone has seen one. Due to their strength and robust appearance, the tables can be placed in any outdoor environment. Guaranteed years of fun for young and old. To keep the base of the ping pong table tidy and to position the table stably, we have designed a base plate especially for our ping pong tables.

Base plate for ping pong tables and foot volleyball table

With a size of 299 x 179 x 10 cm, you keep the space under the ping pong table rectangular and the ping pong table's rounded corners free of unwanted grass and weeds. The anthracite concrete colour gives a chic look and is made of the same material as HeBlad's other anthracite concrete products. This makes the base plate very suitable for placement under the anthracite concrete ping pong table and the rounded anthracite concrete ping pong table. Because of the size, you can also choose to use the anthracite concrete base plate as a contrast for the natural ping pong tables or the anthracite lacquered ping pong table. This base plate is also used under a HeBlad foot volleyball table.

Delivery of the base plate

The base plate is made from one piece and is supplied with a tap. Therefore, always check in advance whether your location meets the delivery conditions or contact us.

Base plate and benches.

The base plate provides stability to the products on a less flat or unstable surface. That is why our benches and other gaming tables can also be placed on the base plate. Combinations of different HeBlad products are certainly possible and will complement your site. We provide years of gaming fun and give spectators and passers-by a wonderful moment of rest.

Contact HeBlad

Do you also want to be sure of low-maintenance fun and also add an eye-catcher to your location? We are happy to think along with you about the possibilities and your wishes. Contact us and we will discuss the options.
