Multi Gaming table (1-3-2) DeLuxe

Product code: PS.DL.GT.132

In this digital age, far too much of our time is taken up by looking at a screen. Fortunately, we've got the Multi-Game Table Deluxe with which you can draw people away from their screens and invite them to play old-fashioned games together. This table is made of concrete, has two benches to sit on and three integrated games. Of course you will also receive the appropriate playing pieces with the table. It is an ideal benefit for any public space, (school) yard, park, snack bar or café.

The games table and the games

The Multi-Game Table Deluxe is equipped with three games. You will find Ludo in the middle and on either side of which a checkers game and a chess game can be found. A set of pawns and pieces is supplied standardly, so you can immediately take place and start playing. The games are integrated into the table top and therefore cannot be blown away or stolen. The pieces and pawns are separate from the table and must be neatly put away when you have finished playing. The table is made from one piece of gray concrete and has two bamboo benches.

Variants of games table
Other versions of this Multi-Game Table are also available. Perhaps you prefer anthracite concrete, a colour that is currently very popular. You may also wish to arrange the games in a different order. In this case, you may want to take a look at the variants of the Deluxe Game table with Chess (1), Ludo (3), Checkers (2). You can also contact us and let us know your wishes. We'll then make a beautiful table that meets your standards exactly.
