Round Ping-pong table in Natural Concrete

Product code: PP.R.NT

The round ping pong tables are ideal for playing a game with several people at the same time. With a diameter of 260 cm, this table tennis table is large enough and therefore very suitable for a group of people. For this reason, the round table tennis table is a very popular product at HeBlad. Young people can enjoy themselves for hours on end and oftentimes come up with other fun games to play on this concrete ping pong table. The table also serves as a gathering place for groups of people.
How much space is needed for a table tennis table? This round version with a diameter of 260 cm naturally requires extra space to walk around it and move around the table. However, unlike what you might expect, a round table tennis table requires slightly less space than a standard ping pong table.

How is a table tennis table made?

Our robust table tennis table is produced from one piece of concrete, so nothing needs to be assembled together. This makes the table very strong and therefore more resistant to vandalism. The concrete used to make the tables is of high quality, as you have come to expect from us. This variant table tennis table is light in colour. The material is purely of natural origin and not processed. The table is particularly well suited for a quieter environment, such as in the woods. Would you prefer to see the ping pong table in another colour? Take a look, for example, at the green and blue versions of the concrete ping pong table. Would you rather not have a round table? No problem. We also produce ping pong tables with regular or rounded corners.

Why a base plate?

Combine the round, concrete ping pong table with a sturdy base plate. The base plate reduces the risk of slipping and also makes maintenance a lot easier. This means you do not have to mow under the table and no weeds can grow there. Our base plates are available in the colours natural concrete or anthracite concrete. Bottom plates are always optional and must be ordered separately, they are not included in the price of the game table.

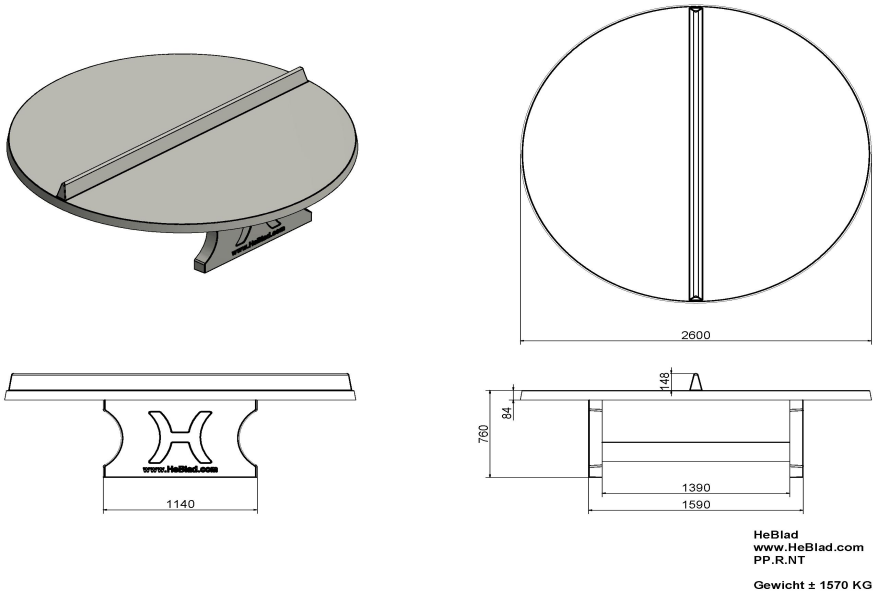

Table tennis table in natural colour

The colour of this round ping pong table is natural. The table is made of natural concrete and has not subsequently been treated with a lacquer layer. The simplicity of this table makes it beautiful. The table can be combined well with our park benches. These are also available in natural concrete.

Want to know more? Please feel free to contact us and one of our employees will be happy to help you.

** When purchasing a HeBlad ping pong table, a set of bats (4 bats and 2 balls) is included for free.
