Concrete Ping-pong table anthracite, rounded

Product code: PP.AR.A

Because this ping-pong table has rounded corners the chance of injury is much less. Young children play a “round the table” without getting hurt at the corners. The anthracite two-component lacquer and the white lining and white “net” gives the table a chic appearance. This playing equipment is provided with strong double steel layers above and below. This makes the table as strong as iron. In addition to that our tables cannot been dismantled. The table surface, the net and the table legs are one complete unit. Not a single screw is used.
