Concrete Ping-pong table anthracite

Product code: PP.A

The classic rectangular table tennis table from HeBlad with an anthracite lacquered playing surface. Who hasn't heard of it? We have been delivering these concrete ping-pong tables to schools, campsites, swimming pools and institutions throughout the Netherlands for more than twenty years now, with the recent addition of delivery to neighbouring countries. The concrete table tennis tables, but our other products as wel, such as the foot volleyball table, the game table and the table football table, provide endless outdoor fun.

The game of table tennis has been around for a long time, but the new generation also knows whereto find the table tennis table; at schools, campsites and neighborhood fields. This concrete ping pong table is weather-resistant and rock-solid. A super strong and therefore durable playground equipment, an asset to any public or busy outdoor space.

One-piece concrete table tennis tables

HeBlad table tennis tables are always cast from one piece of concrete. This means that there are no loose parts, no nuts or bolts involved. The tables cannot be dismantled. That is what makes them so solid and robust. The playing surface of this variant is anthracite. This top layer in colour is also strong. After a thorough primer, all concrete table tennis tables are sprayed with a two-component paint in, for example, anthracite (RAL 7016), green (RAL6009) or blue (RAL 5005). The table defies all seasons and is resistant to all weather influences. The top layer is very wear-resistant.

Concrete table tennis tables in different sizes
