Round Ping-Pong table Anthracite

Product code: PP.R.A

Playing table tennis has never been so challenging. A round table offers countless gaming options. The regular game of table tennis becomes more challenging with this new design, but what about the game 'around the table'? The table tennis table round anthracite is cast from one piece of reinforced concrete. The anthracite colour of the table top and the white colour of the lines and net are free of peeling because of the two-component paint. This varnish is weather resistant, easy to clean and easy to maintain. A robust table tennis table with a beautiful round shape and sleek paintwork.

Concrete table tennis table with or without base plate

We supply our concrete ping pong table without a concrete base plate. However, in some cases it can be very practical to place our game and gaming tables on a concrete base plate. This way you can ensure that the table is stable, especially on soft grounds like grass. A concrete base is also easier to keep clean than a lawn, and unwanted weeds stand no chance to grow underneath your table, a space that is hard to maintain.
The concrete base plate is available in different colours. This way, the base plate fits well with the chosen ping pong table and any other game tables.

Table tennis tables supply

At Heblad, we deliver our products ourselves with our own truck, directly from our factory. We deliver with a loading/unloading crane on a 14 meter long truck. So there must be enough space taken into account for the installation of your table. The crane has a reach of up to 5 meters. Individual game tables can then be

moved with a pallet truck. Please note: 1 person must be present to help, this way we can ensure the correct placement of the table.
Are you also ordering a base plate? We can no longer move this manually with a pallet truck. We can only supply a concrete base plate and products with a (fixed) base plate within 5 meters of the truck. You then have to take care of the installation yourself. Please read our delivery conditions carefully and contact us if you have any doubts or questions.

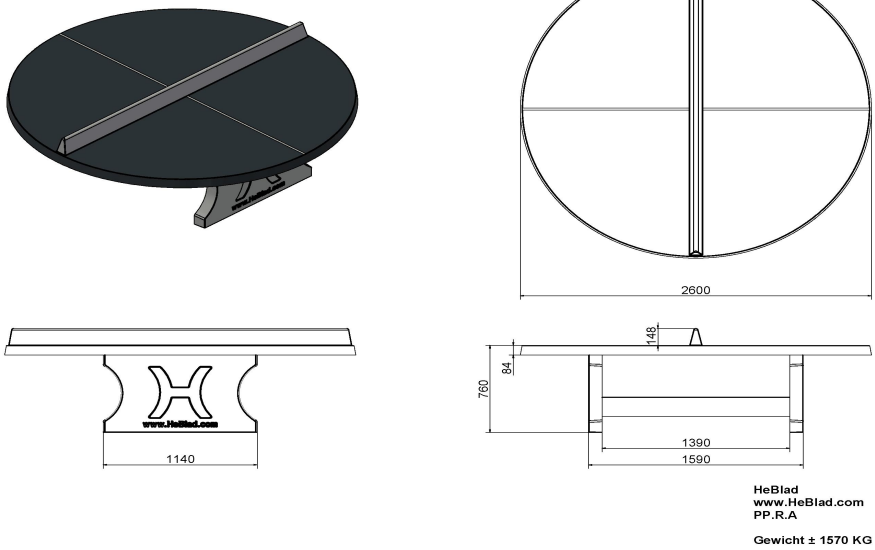

Table tennis table round anthracite or natural

The round table tennis table is also available in the colours natural concrete, anthracite concrete, green and blue. Except for the difference in colour, these tables have the same high quality specifications. It's just a matter of taste and placement which colour is best for your property. Do you want the table tennis table to stand out in the area or do you prefer a quieter view? If you choose multiple table tennis tables, regardless of colour, you can count on a nice discount.

Contact Heblad

Ask all your questions about the product specifications of the table tennis tables or the options that Heblad has for your location. It is advisable to contact us, especially if you have questions about the delivery conditions or are unsure whether the location is sufficiently accessible. We are happy to think along with you and help you further.
