Backgammon Bench, Anthracite-Concrete

Product code: BB.BG.AB

Dark, robust and multifunctional. This backgammon bench made of anthracite concrete is a true jewel in your garden or in public spaces. How much does the anthracite concrete backgammon bench cost? You will not find a product of this high quality for a better price. At HeBlad, you order directly from the supplier and manufacturer, which saves in cost and emission.
Did you know that you always automatically receive an extra discount when you order multiple HeBlad products? That is more than worth the effort to combine our products. How about a regular concrete bench or a beautiful chess bench in anthracite concrete colour?

Backgammon bank from HeBlad
Like all HeBlad products, this backgammon bench is also made from a single piece of concrete. Insensitive to vandalism and weather influences. Because the colour anthracite is added to the concrete, the entire bench is this beautiful anthracite colour, including the inside of the product. In the unlikely event of damage, the bench will not lose its colour. Thanks to their massive weight, HeBlad backgammon banks are also impervious to theft and vandalism. By placing the bank in a strategic location, even ram raids can be prevented or you will have a perfect and sturdy separation of your site.

Delivery of the backgammon bench
We produce and supply this backgammon bank in-house. That is why we always advise you to read the delivery conditions in advance. We work with short delivery times of averagely 6 working weeks and with a loading and unloading crane from our own truck. The backgammon bank is always supplied including the backgammon stones and five dice. A possible base plate is always optional. You
